

# LEV 600 VI R- FUT

Designed to move, lift and turn L and XL ring steel and plastic drums into drum racking.

Available with either manual or powered hydraulic lift and tip controls.

## Specification:

- Max. load: 350 kg
- Drum Ø = 600 mm

Model shown is manual drive with electric lift and lower and electric drum turner.

## ROTO- FUT/ CRANE HOIST

Variable width drum turner attachments for either crane hoist or forklift attachment.  
The specification is similar to the LEV 600 ROTO-FUT and has a capacity of 350 kg.

## ROTO- FUT/ FORKLIFT

## DRUM CLAMP FP4

Automatic 4 point drum clamp designed to lift drums vertically.

## Specification:

- Max. load = 350 kg
- Drum size Ø = 530 – 650 mm

## ROTO- VI T

Hoist hung turner for steel drums.  
The Roto-Vit drum turner is a simple unit designed to lift and turn steel drums through 90°. Suits most crane hoists and the crane hook option on the LEV 600.

## Specification:

- Max. load: 350 kg
- Drum Ø = 600 mm

## DRUM CLAMP LF20

Simple 2 point clamp to lift drums vertically using the upper rim.

## Specification:

- Max. load = 350 kg
- Drum size Ø = 420 – 700 mm
