

You won't hear it coming...

Every supermarket and every DIY store want to ensure their customers are in a good environment. A provision for this is a quiet and peaceful shopping atmosphere, whilst the employees transport different goods in the market!

The specially designed wheels ensure the noiseless transport, and the pallet truck is therefore tailor-made for every customer area! The silent transport is also advantageous in buildings with both shops and living quarters.

The wheels are gentle to the fine floor and flagstone layer, which is often used in customer areas. Panther Silent is therefore saving maintenance costs due to wear and damage to flooring, such as flagstones. Panther Silent is a very environment-friendly pallet truck with a long operating life!
